## Call to Order

## Roll Call

## Approval of Consent Agenda and March 2020 Meeting Minutes

## Approval of Monthly Financial Report

## Budget Presentation

## Public Comments

# Committee Reports

## Special Projects / Events and Communications

Committee Update – No Update

### ACTION ITEM

Update on recent and upcoming events

- Fishing Derby
- Wood Duck nesting box project

## Save our Shoreline and Water Monitoring

Committee Update – No Update

### ACTION ITEMS

Boy Scouts Water Gardens Projects

New Shoreline Restoration Projects

Plant Sale

# District Projects and Operations

## Communications Report

Quarterly newsletter

Lake vegetation outreach efforts

Social Media Activity

Emergency Planning

## Devils Lake Conservation/Aeration Project

System is due for annual maintenance, anticipated work to be completed by early summer. Maintenance includes diffuser cleaning, distribution line checks, manifold adjustments, and shoreline compressor maintenance.

## Devils Lake Aquatic Vegetation Management

Milfoil management update: Parrot Feather has been identified in the lower parts of the lake this year. Particularly in the slower moving water areas such as the canals near the D River. Conversations with the City of Lincoln City have garnered financial support for our continued vegetation management efforts. Another treatment is anticipated this year to eradicate the invasive milfoil before native plant life is overtaken. Last years treatment was highly effective in removing the nuisance plant without fish and wildlife detriments and native shoreline plant habitats are flourishing in those areas. A summary of last years treatment is posted on [www.dlwid.org](http://www.dlwid.org) as well as our social media outlets.

## ACTION ITEM

Grass Carp Regulations (No update)

## Airstream Pro Shoreline Aerator

DLWID plans to evaluate re-deployment once office is relocated

## Devils Lake Flood Protection

No update, currently awaiting regulatory review.

## ACTION ITEMS

No update

## Water Quality Briefing

No change from last month. Dissolved Oxygen levels are very healthy at over 95% on the lake bottom lakewide with no problematic algal growth at this time. E Coli sampling to begin on Memorial Day Week. EXO equipment has been maintained and professionally calibrated by the manufacturer and will continue its deployment in Devils Lake.

## **New Business**

### **ACTION ITEMS**

Public poll regarding Districts resources and responsibilities

DLWID Relocation
